Dear Customer,

Blue Sky Recycling is glad that you are excited about recycling. Remember to have your recyclables outside your designated location the night before your scheduled day of pick-up.

If you are using your own container, please be sure it is secured to protect the recyclables from rain and wind. Output that exceeds 30 gallons may be subject to an excess fee. Here is a summary of recyclables the recycling centers accept.

-Plastics-

- Please look for the recycle logo on the plastic container. →
- Small mouth & narrow mouth 1 - 7 plastics are recyclable.
- We cannot accept plastic bags.
- We cannot accept packaging material of any kind.

-Paper & Cardboard-

- We accept office paper, newspaper, magazines, junk mail, catalogues, and phonebooks.
- Shredded paper is fine, please bag it separately.
- Cardboard must be free and clear of all packaging material.
- Please break down large cardboard boxes and place in, underneath, or beside your bin.
- We cannot accept paper or cardboard that is soiled.
- We cannot accept paper towels, napkins or tissues.

-Tin, Aluminum, & Steel Cans-

- Please rinse out any excess food from cans and containers.

-Glass-

- We accept brown, clear, and green glass.
- We cannot accept blue glass.

This will help eliminate the amount of trash mixed in with the recyclables and allow us to move the recyclables in a more efficient manner to the recycling centers. As always, your questions, comments, or suggestions are welcome. Thank you for choosing Blue Sky Recycling as your recycle service provider.

Sincerely,

Robert & Jenifer Harris
